

StudentTracker for High Schools

Which of your students went to college? Where did they enroll? Did they graduate?

StudentTracker for High Schools answers these questions and more by matching your records against the National Student Clearinghouse's database: *the only nationwide collection of collegiate enrollment and degree data*. These are actual student records provided to the Clearinghouse every 30-45 days by our more than 3,300 participating postsecondary institutions, which enroll over 92% of all U.S. higher education students.

After StudentTracker matches your records against our database, you'll receive a comprehensive report containing the information you need to better assess the college attendance, persistence and achievement of your graduates.

Your StudentTracker Report

Each year, you will receive a comprehensive report containing more than 30 color graphs and charts showing the college enrollment and achievements of your high school graduates.

You will also receive a student-level detail report that allows you to identify the postsecondary performance of individual students. By combining StudentTracker's student-level data with your own information, you can analyze educational trends and patterns using any variable you choose. If you like, you can request updated reports at any time during the year.

Shows how many of your students enrolled in college within the first two years after graduating high school and how many persisted in their college education, including enrollment at two- and four-year institutions both in and out of state.

You will also receive the percent of your high school graduates who have a college degree, if available.

Lists the colleges where your students have most often enrolled immediately after high school graduation.

Calculates time to college graduation based on the high school completion date you provided.

Tracks the progress of one class of students through postsecondary education, including first enrollment, retention, re-enrollment after stop outs, graduation, and drop outs.

StudentTracker for High Schools

How StudentTracker for High Schools Works

1

You provide the Clearinghouse with a history file of your graduates. After each graduation period, you submit an update with new diploma recipients.

3

Matches are compiled in a comprehensive report and sent to you each year.

2

StudentTracker runs your file against the Clearinghouse's national student-level database to search for matches.

Annual StudentTracker Report
(30+ color charts & student-level detail on your high school graduates' postsecondary performance)

Designed for High Schools

Through StudentTracker for High Schools, your high school or district can access the Clearinghouse's database to obtain accurate information on the educational outcomes of your graduates anywhere in the U.S., including:

- ✓ College attendance
- ✓ Persistence
- ✓ Degree Attainment

With this information, you can statistically measure the effectiveness of your college preparation efforts and introduce improvements to ensure a more successful transition to college for your students.

Benefits of Using StudentTracker

- ✓ Tracks your students' college attendance nationwide
- ✓ Provides turnkey professional-quality reports at an affordable price
- ✓ Covers over 92% of all U.S. college enrollment
- ✓ Includes all types of institutions: 2-/4-year, graduate, public/private, trade, vocational, etc.
- ✓ Helps you accurately assess your college preparation efforts
- ✓ Measures your graduates' persistence in college
- ✓ Complies with FERPA

What Users Are Saying About StudentTracker

StudentTracker "... helped us determine that our post-secondary attendance rates are nearly double what we previously thought."

– Darryl Cobb, Assoc. Superintendent, Hickman Mills School District

"We would not have been able to identify [recent college enrollment] gains without StudentTracker..."

– Arne Duncan, former CEO, Chicago Public Schools (current U.S. Secretary of Education)

StudentTracker "... allows us to objectively assess our ability to prepare Utah's students for college success."

– Dave Feitz, Deputy Exec. Dir., Policy & Development, Utah Higher Education Assistance Authority
